

PETER STONE BROWN

October 18, 1996

Hi John,

Sorry I haven't gotten back to you, but I've been really busy dealing with this album stuff and on top of that my dad is very sick. I really dug the tape (great to hear johnson boys again) and played it for my roommate who also dug it.

My album is out. You should be able to find it at better CD stores (of course I don't know if they have them out there). I can't really afford to give you one because I have starting to recoup my investment (close to 10,000)--and I *need* people all over the country to go out and buy the fucking thing. Hope you understand. If you can't find it anywhere, let me know, and I'll sell you one real cheap.

Anyway, let me know. I hope to get up there soon. It was greally great talking to you again. I'm still amazed you recognized my voice after all these years. Would love to see you, get really stoned and play epiphone texans.

Peter
